8. **DUS OIC/SMIIC 4:2018 Halal Cosmetics – General Requirements**

   Scope

   This standard defines the basic requirements, based on Islamic Rules and Laws, that shall be fulfilled by the halal cosmetic industry during every stage of cosmetic supply chain including, receiving, preparation, production, storage, packaging, labelling, controlling, handling, transportation, and distribution.

   "Cosmetic product applicators" for cosmetic products are under this standard's scope if they are in the cosmetic product package.

   Cosmetic product application service sectors such as salons, etc. are out of scope, however, cosmetic products used by these sectors are within the scope.

   The products which are produced for diagnosis, treatment and protection from diseases are out of scope.

   This standard is applicable to all the categories of cosmetics and to all types of organizations irrespective of their size and complexity
